

## Differentiate your Solution with **InGenius Connector**

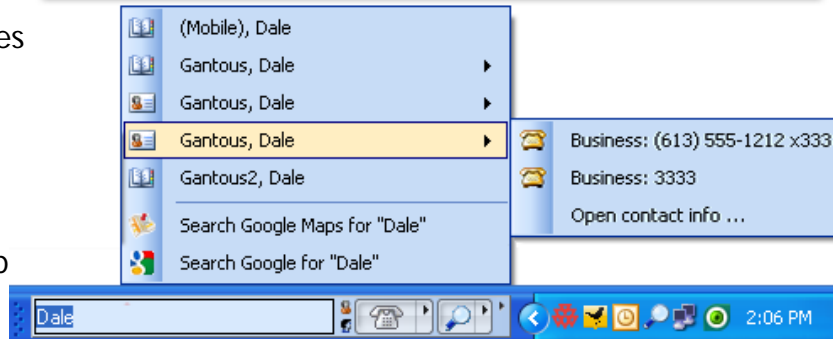

Combine the power of the Microsoft®, the power of Google®, and the power of your IP Phone to accelerate and simplify all your phone communications with **InGenius Connector**. InGenius Connector is a PC application that provides search-and-dial capabilities and incoming caller ID screen pop, with full Microsoft® Outlook® and Active Directory® or LDAP Directory integration. And, InGenius Connector provides integrated web searches with GoogleMaps® and GoogleSearch® to locate and dial new contacts with just a single click. The optional InGenius Connector Softphone has the same great UI and functionality.

- Search and Dial PC Application

### Search Outlook and any LDAP Directory

- Integrated web searches with Google Maps and Google search

- Incoming caller ID screen-pop with automated contact pop and desktop search

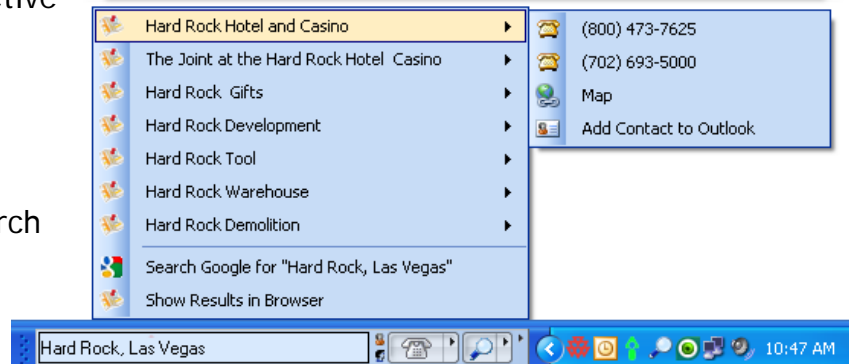

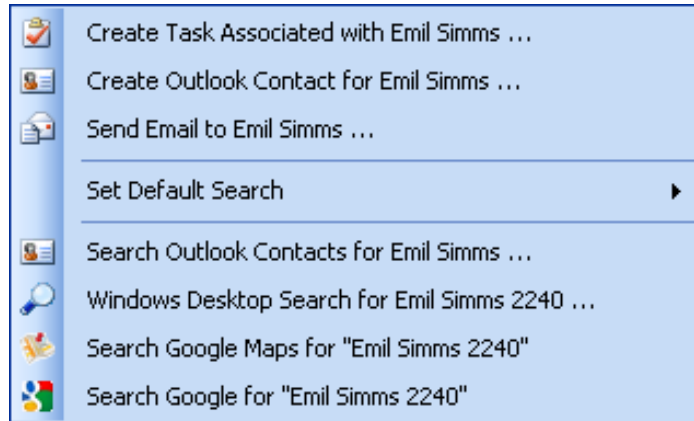

- Elegant UI: Small toolbar and tray icon interface

- Searches Outlook, Active Directory and LDAP Directories, and BroadSoft Directory

- Integrated optional Softphone, same search capabilities and unobtrusive UI
